

## SHUTTER

Urban modernism in architecture is often expressed with the use of raw materials, a perfect example is the renaissance of Shutter Concrete as a main element for interiors as well as exterior finished surfaces. This is precisely the inspiration for this collection which celebrates this noble and durable material using the best of European porcelain stoneware as a medium. The collection is presented in the three shades of concrete to express the different regional characters.

### FINISH

- Natural (R9)
- Textured (R11) (Only 600x300 & 600x600)

### THICKNESS OPTIONS
